Alto

Way of Life!

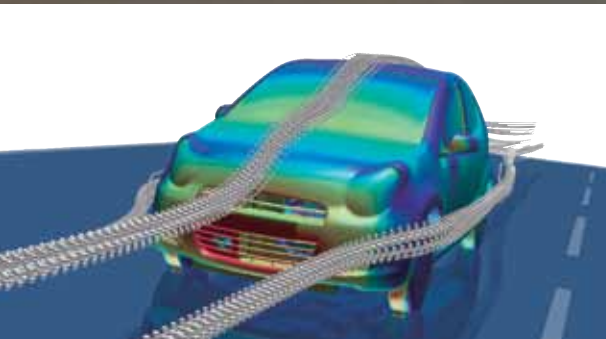

Accelerate your Alto

No matter your destination, simply slip into the Alto for a smooth ride and great performance that make getting from one place to another, a simple pleasure. Schedule a day of fun and take your Alto for a spin.

The Alto is also made with the fashion-conscious in mind. It's the perfect car to suit any outfit, any occasion, any driver.

Smooth progress

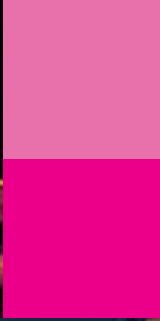

The Alto was designed using cutting-edge flow simulations and extensive wind tunnel testing. The result? A body constructed to ensure smoother airflow and low drag, lowering fuel consumption and emissions and ensuring a quieter drive.

Big step, small footprint

The Alto is not just about style, economy or even comfort. It is also all about the environment. The Alto treads lightly, cutting down on carbon emissions, whether your destination is across the city or just to the corner coffee shop.

Fast, easy driving

Love driving? Jump into your Alto for one of the best city driving experiences of your life. Nippy performance, a distinctive and throaty engine roar, predictable handling and ride quality unmatched by other vehicles in its class. Although it is eco-friendly, the Alto's engine is powerful enough to give you peppy performance with lower fuel consumption.

Sporty, Smooth, Safe

Despite its compact exterior, the Alto is loaded with safety features. The Alto's body is built using Suzuki's Total Effective Control Technology (TECT) which absorbs impact energy and disperses it away from the driver and passengers. The GLS model features four-wheel ABS (Anti-lock Brake System), EBD (Electronic Brake force Distribution) and BA (Brake Assist). All models feature driver and passenger front airbags, three-point front seatbelts equipped with pre-tensioners and force limiters and side impact beams. You're guaranteed a safe and truly exciting ride.

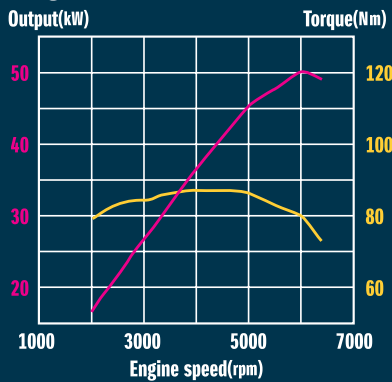

Need it? Store it.

Got it all? Need somewhere to put it? The Alto has lots of storage space, to ensure you never leave anything behind. With front, rear and passenger side storage boxes, you can keep road maps, personal organisers and even 500ml water bottles close for when you need them. And, the boot offers extra space for shopping, sports kit or bags for a weekend away.

Engine performance curves

The Alto utilises a highly compact, all aluminium 1.0 litre engine, with a maximum output of 50kW and a torque peak of 87Nm at 4 500 r/min. With a low kerb weight of just 895kg, it is not hard to see where the Alto gets its energetic and lively character.

Let the Alto drive you

Slip through the traffic, park with ease. The Alto's great dimensions and speed sensitive power steering give you the edge whether you're pulling into your favourite restaurant, making a quick breakfast pit stop or taking a long, casual drive around the city. A turning circle radius of just 4.5 metres provides excellent manoeuvrability and an ability to slip into tight parking spaces.

The image shows the interior of a car, focusing on the dashboard and center console. The dashboard is dark grey with a circular air vent on the left and a rectangular air vent on the right. Below the dashboard is a large, curved, light grey panel. The center console features a gear shift lever with a black leather boot. The steering wheel is partially visible on the left. The text "Inside Style" is overlaid in a bold, orange font on the light grey panel.

Inside Style

The Alto is not just a great looking car from the outside. It also has lots of great interior features, such as a high legibility speedometer which gives you up-to-the-minute driving information, air conditioning and a sportily-styled steering wheel and gear lever.

SUZUKI
COMPLETE

Suzuki understands that purchasing a new vehicle is a substantial investment. Our unwavering commitment to customer satisfaction is represented in our Suzuki Complete programme, which includes every aspect of post sales support, comprising the warranty, service plan and roadside assistance as standard.

Warranty

All Suzuki models are covered by a comprehensive manufacturer's warranty against any defects for a period of 3yrs or 100 000 km.

Roadside Assistance

In addition, every new car sold incorporates a 3yr roadside assistance plan, administered and operated by the Automobile Association of SA.

Amongst its many features, this comprehensive package incorporates around-the-clock AA road patrols, battery and locksmith call-out services, mechanical and electrical break-down towing (accident towing is optional), emergency medical rescue and vehicle repatriation.
